Linetime

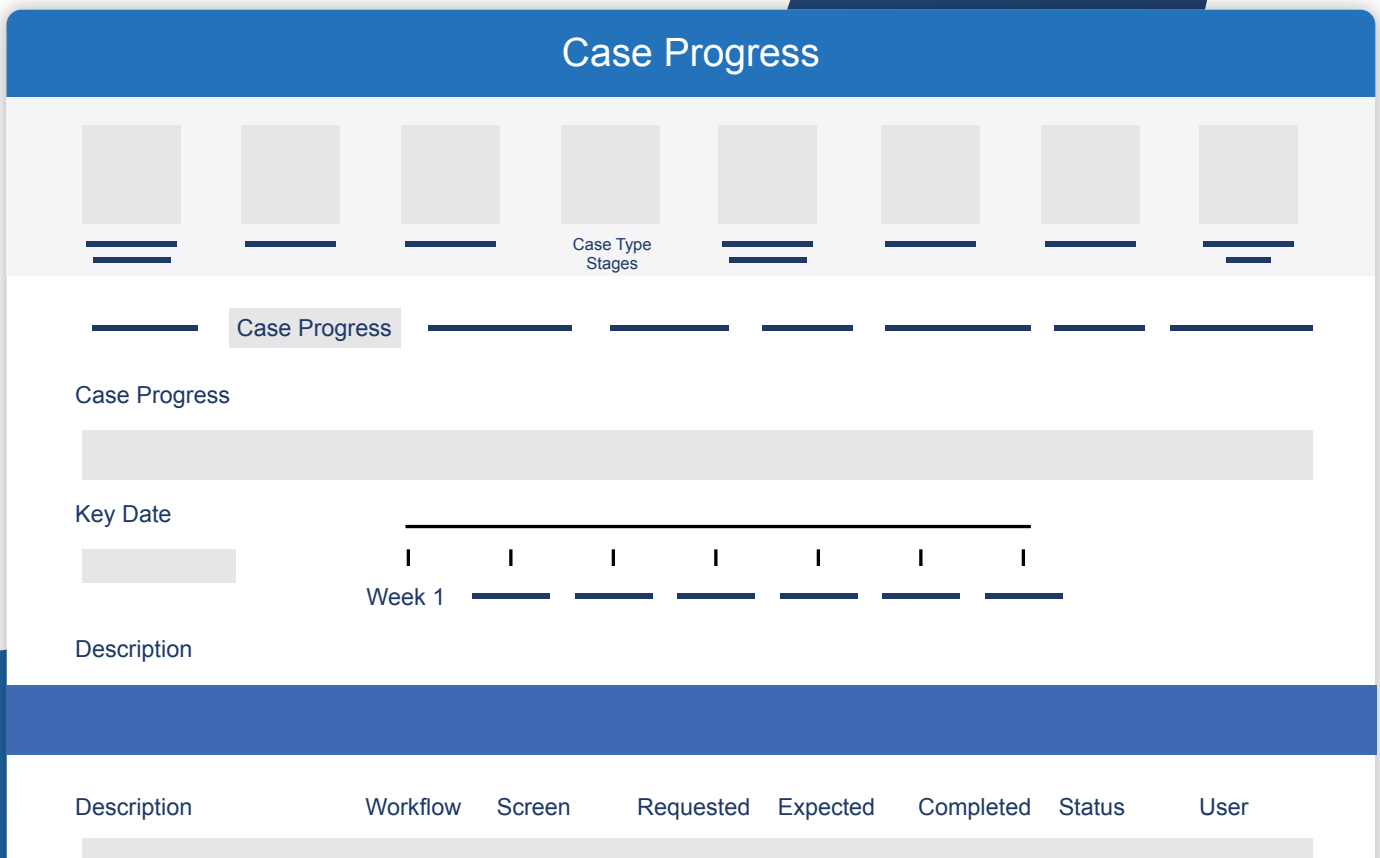
The Legal Case Management and Accounting Solution

Powerful software and flexible services designed for enterprise law firms to grow.

Linetime

Empowering enterprise law firms to excel.

Linetime stands unrivalled in crafting advanced legal case management and accounting solutions, propelling enterprise law firms to new heights. Our highly adaptable system is a linchpin for the effective management of legal matters, offering robust functionalities in accounting, credit control, and billing. At the heart of our expertise lie two core pillars: legal accounting and case management. This strategic focus guarantees seamless integration and optimal performance, catering to the unique needs of regional, national, and multi-site law firms.



Everything you need in one smart solution.

Linetime's innovative Liberate solution offers a comprehensive suite of tools designed to enhance every aspect of your law firm.

Scalable Technology

Our software is designed to grow with your business, aligning seamlessly with how you operate. Adapt your software to your business, not your business to the software.

Tailored Integrations

The ability to integrate with other applications allow users to work seamlessly between our software and third-party apps in one system.

Know Your Business (BI)

Our legal practice data analytics, including KPIs, performance databases, ROI trackers and customisable dashboards, ensure you gain valuable insights to make informed and strategic business decisions.

In-built Compliance

Our in-built compliance tools support the reduction of risk, improve conflict checking, data security and more. Helping to provide your firm with peace of mind.

Familiar Design

Our software's Microsoft Office-style interface ensures familiarity, making features easily accessible and user-friendly.

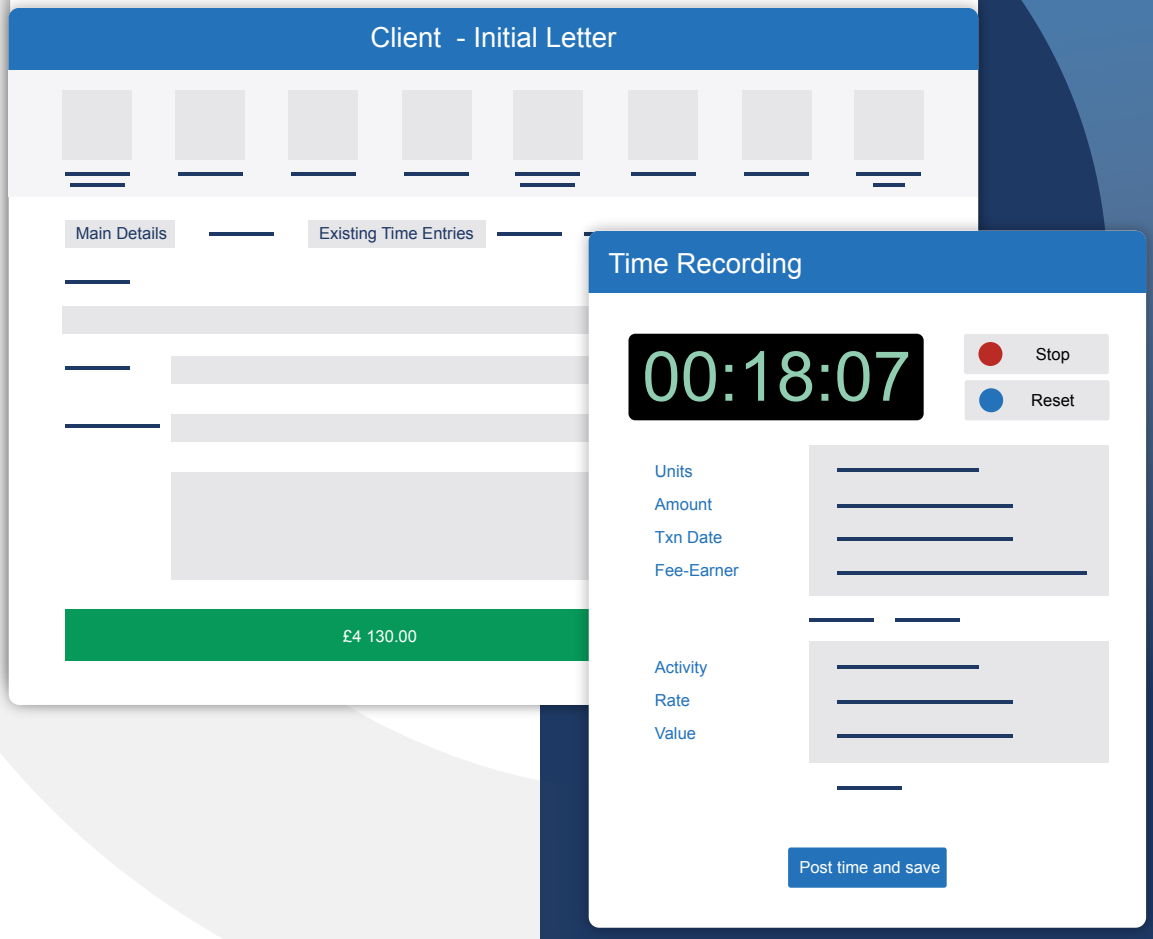
Quick Query Tool

The quick query tool empowers you to easily create and lookup contact information to enhance campaign management.

Our meticulously designed software affords your business the flexibility and customisation it demands. We are committed to innovation, delivering a scalable case management and accounting solution that not only meets your current needs but also anticipates and accommodates future challenges.

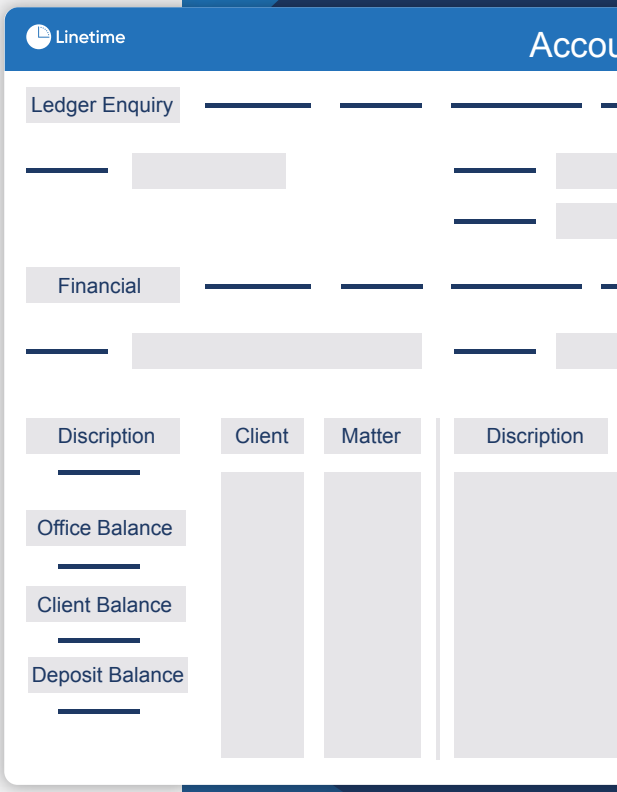
Automatic Time Recording

Our foolproof automatic time recording means firms remove lost time, and can confidently bill for hours worked.



Liberate your finances, elevate your firm.

Streamline your financial prowess with Liberate's comprehensive accounting features. Elevate cash flow, effortlessly comply with SRA regulations, and alleviate accounting pressures within your enterprise firm.



Key Features

Effortless Billing Options - Choose from one-click, scheduled or multi-matter billing, tailoring profiles to match client agreements seamlessly.

Real-time Budget Oversight - Monitor matter budgets in real-time, linked with automatic time recording for precise billing management.

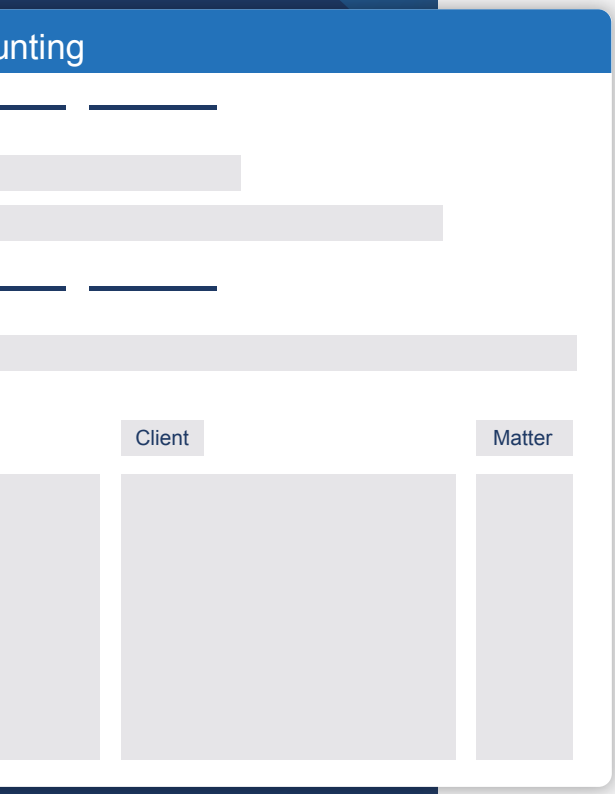
Automated Purchase Ledger - Effortlessly manage suppliers in a paperless environment, eliminating manual invoice passing.

Enhanced Credit Control - Tailor control profiles per client for swifter billing and payments. Easily track outstanding bills and automate payment chasing.

Additional Benefits

- Effortless client refunds
- Streamlined invoice approval processes
- Segregation and management of transactions
- Automated reminders and user notifications for payments
- Batch payment capabilities
- Access to built-in financial reporting tools

Linetime



A service to match.

Beyond vendorship, we're your trusted partner.

Achieving maximal returns from our Liberate solution extends beyond mere software deployment. We transcend the conventional vendor role by establishing a strategic partnership to guarantee comprehensive software adoption and proficiency among users. This commitment manifests in various ways:

Tailored Engagement Process

Initial Scoping - Collaboratively understanding your technical landscape, departmental needs, and budgetary considerations.

Issue Management - Implementing a proactive project management structure to swiftly address challenges.

Timeline Manager - Agreement on a clear delivery timeline with proactive identification and resolution of potential hurdles.

Empowering Proficiency

Tailored Training - Our experienced trainers provide personalised, remote or in-person training, focusing on delivering an exceptional user experience.

Client Success Consultants - Dedicated consultants work as your allies, conducting regular health checks to unveil additional software features and ensure maximal ROI for your firm.

Comprehensive Learning Ecosystem

Training Webinars - Regularly hosted training webinars ensure your team is up to scratch.

Community Learning - Access a wealth of informative videos, courses, and collaborative forums designed to enhance proficiency and uncover hidden functionalities.
